

Georgia: The Horticultural Industry in Georgia

FRESNO
STATE®
Study Abroad

Information Session

Thursday, October 12
4 pm • RSU214

May 26 - June 09, 2024

Embark on a transformative study abroad journey in Georgia, Eastern Europe. Dive deep into horticulture, including fruit, viticulture, nursery production, and post-harvest care. Explore diverse crops like potatoes, wheat, corn, peaches, apples, citrus, and watermelons. Witness Georgia's export success in walnuts and almonds.

Focus on grape and nut production, and trace the agricultural process from field to high-tech facilities. Engage with farms, wineries, orchards, nurseries, and processing plants. Experience a dynamic cross-cultural exchange. Join us for an unforgettable exploration of Georgia's horticultural future!

Courses:

PLANT 170T/AGBS 185T (3 units)

Program Price:

\$2,609 (For matriculated students)

\$4,459 (For non-matriculated students)

*Price subject to change
