

**ATTACHMENT C**  
**WRITTEN RECORD OF TEST FORM**

A Written Record of Test form may be completed for a single pump efficiency test or for multiple tests at a single facility. This attachment provides forms for a single test and for multiple tests. For each form:

The Company will

- a. Sign the form

The CLIENT will:

- a. Print their name and position
- b. Date the form
- c. Sign the form

**WRITTEN RECORD OF TEST  
SINGLE TEST  
ADVANCED PUMPING EFFICIENCY PROGRAM**

Dear PG&E Pumping Customer:

Thank you for participating in the Advanced Pumping Efficiency Program (APEP or Program). APEP is funded through Pacific Gas and Electric Company's (PG&E's) energy efficiency program portfolio as directed by the California Public Utilities Commission (Commission). APEP provides subsidies to pump test companies to assist them in providing their services at reduced costs to PG&E customers with eligible pumps. However, the subsidy may not cover the total cost of the Test and you may be charged an additional fee by the Test company. Once you have received your Test results, please sign the attached Written Record of Test so the subsidy can be released to the pump Test company.

The Report contains information concerning your pump's performance and an estimate of the potential energy savings you can achieve by improving your pump's performance through a retrofit or replacement. Your pump tester or repair company can provide an APEP Program pamphlet explaining more about the Test process and results, and can also help determine if a pump retrofit would be economical for you at this time.

You may also call 1(800) 845-6038 to speak with an APEP representative from 8am-5pm, Monday through Friday. Program representatives are available to provide technical assistance, locate participating pump testers or repair companies, answer general questions about pumps and pumping, and provide information concerning other PG&E energy efficiency programs that may be available to you.

APEP also offers free educational classes or webinars on pumping efficiency. Check the calendar of events at [www.pge.com/energyclasses](http://www.pge.com/energyclasses) to explore our offerings.

Lastly, we really value your input in helping us ensure a quality program. Please take a moment to fill out our survey [here](#).

Sincerely,

William Green, APEP Program Manager & Education Specialist

*California consumers are not obligated to purchase any full fee service or other service not funded by this program. The Advanced Pumping Efficiency Program is funded by California utility ratepayers under the auspices of the California Public Utilities Commission.*

*Los consumidores en California no estan obligados a comprar servicios completos o adicionales que no esten cubiertos bajo este programa. Este programa esta financiado por los usuarios de servicios públicos en California bajo la jurisdiccion de la Comisión de Servicios Públicos de California.*

**Record of Pump Efficiency Test**

*It is the sole responsibility of the pump test company to have this form completed and then submit it to APEP in order to receive the pump test subsidy.*

**Pump Tester - Please fill out this section of the form**

I certify that I performed test # \_\_\_\_\_ on date \_\_\_/\_\_\_/\_\_\_ on the pump serviced by meter \_\_\_\_\_

**Tester Name:** \_\_\_\_\_

**Test Company:** \_\_\_\_\_

**Signed:** \_\_\_\_\_

**Pump Owner/Operator - Please fill out this section of the form**

I certify that this pump efficiency test was not for the purposes of a real estate transaction or to fulfill requirements of any government or quasi-government agency. I further certify that I have legal authority over the operation of this pump.

I was given a record of the pump test containing all measured data and the calculated Overall Pumping Efficiency (OPE) and kilowatt hours (or therms) required to pump an acre-foot of water. I am aware that the test information will be sent to APEP and PG&E. I am also aware that APEP is providing a subsidy to the pump tester for eligible pumps. I also understand that APEP may share my information with PG&E so that a representative may contact me with information about available rebates and incentives for pump or motor retrofits and replacements, unless I opt out by checking the box below.

**Name (print):** \_\_\_\_\_

**Bus. Name:** \_\_\_\_\_

**Title:** \_\_\_\_\_

**Phone:** \_\_\_\_\_

**Signed:** \_\_\_\_\_

**Date:** \_\_\_\_\_

- I do not want to receive communications from PG&E or their affiliates about available rebates and incentives for pump or motor retrofits and replacements.
